Network Activity Notification (for XP)

Windows XP can place an icon in the system tray that will indicate activity over your connection to your LAN and/or Internet Service.

Open your control panel and click on the Network Connections icon. You should see a window similar to:

1 of 3

Network Activity Notification (for XP)

Right click on the icon for your connection and select Properties. You should see:

🕹 Local Area Connection Properties 🛛 🔹 💽			
General Authentication Advanced			
Connect using:			
Bealtek RTL8139/810x Family Fast			
This connection uses the following items:			
 Client for Microsoft Networks Client for Microsoft Networks Quite Printer Sharing for Microsoft Networks Quite Quite Scheduler Thternet Protocol (TCP/IP) 			
Install Uninstall Properties Description Allows your computer to access resources on a Microsoft network.			
 ✓ Show icon in notification area when connected ✓ Notify me when this connection has limited or no connectivity 			
OK Cancel			

Make sure the check boxes in the bottom of the window are checked. Click on OK. You are done.

You can click on the 2 computer icon in the system tray and it will show you your connection traffic in a window similar to:
