	Virus & spyware definitions status - Updating
	Microsoft Security Essentials is installing the latest virus & spyware definitions from the Microsoft Update Center.
	Searching
	You may close or minimize the Microsoft Security Essentials window during this update.
	Did you know? Virus & spyware definitions are files that Microsoft Security Essentials uses to identify malicious or potentially unwanted software on your computer. These definitions are updated automatically. However, if for any reason your computer's definitions don't get updated automatically, you should get the latest updates to help protect your computer.
	Oid you know? Virus & spyware definitions are files that Microsoft Security Essentials uses to identify malicious or potentially unwanted software on your computer.
